STOP LEAVING MONEY ON THE TABLE!

Paint materials reimbursement is one of the most underpaid — and under-documented — line items in collision repair. This full-day forum delivers the strategies, data, and confidence you need to protect your margins and get paid what your shop deserves.

WHAT YOU'LL WALK AWAY WITH

Real strategies and practical tools to defend every dollar on your estimate.

Insights from top paint manufacturers on standards, position statements, and what insurers need to see.

Complete reimbursement toolkit from SCRS data and OEM information to legislation updates.

Clear comparison of multiplier method vs. invoicing.

BEYOND PAINT—THE BIG PICTURE

This full-day forum takes a wider lens on where collision repair is headed. Mike Anderson of Collision Advice will lead a session on the state of the industry—covering updated labor hour data by state, after-hours revenue strategies, autonomous vehicle trends, ADAS considerations, and the insurance landscape reshaping every estimate.
